

RCTQ-3182-FM

The AlanDick RCTQ-3182-FM is a 3 1/8" EIA – 7/8" EIA 8 Exit Coaxial Power Divider. All parts are manufactured using the highest quality corrosion resistant materials and are designed for many years of reliable trouble-free operation. The RCTQ-3182-FM is designed to be pressurized with dry air in order to prevent moisture condensation and the resultant degradation in electrical performance.

Example Picture

Product Specification		
Frequency Range	(MHz)	88 - 108
Return Loss	(dB)	<-30
Number of Ways		8
Input Impedance	(ohms)	50
Max Power @ 98MHz	(kW)	43.6
Max Voltage	(kV)	6.58
Construction		Brass/Copper
Input Connector		3 1/8" EIA
Output Connectors		7/8" EIA
Pressurisation Required		Yes
