

## RCTQ-3222-FM

The AlanDick RCTQ-3222-FM is a 3 1/8" EIA – 1 5/8" EIA 2 Exit Coaxial Power Divider. All parts are manufactured using the highest quality corrosion resistant materials and are designed for many years of reliable trouble-free operation. The RCTQ-3222-FM is designed to be pressurized with dry air in order to prevent moisture condensation and the resultant degradation in electrical performance.

Product Specification		
Frequency Range	(MHz)	88 - 108
Return Loss	(dB)	<-30
Number of Ways		2
Input Impedance	(ohms)	50
Max Power @ 470MHz	(kW)	35.6
Max Voltage	(kV)	6.99
Construction		Brass/Copper
Input Connector		3 1/8" EIA
Output Connectors		1 5/8" EIA
Pressurisation Required		Yes
