

RCTQ-2154-UHF

The Jampro Antennas RCTQ-2154-UHF is a 1 5/8" EIA – 7/8" EIA 5 Exit Coaxial Power Divider. All parts are manufactured using the highest quality corrosion resistant materials and are designed for many years of reliable trouble-free operation. The RCTQ-2154-UHF is designed to be pressurized with dry air in order to prevent moisture condensation and the resultant degradation in electrical performance.

Product Specification		
Frequency Range	(MHz)	470 - 860
Return Loss	(dB)	<-30
Number of Ways		5
Input Impedance	(ohms)	50
Max Power @ 470MHz	(kW)	8.1
Max Voltage	(kV)	4.94
Construction		Brass/Copper
Input Connector		1 5/8" EIA
Output Connectors		7/8" EIA
Pressurisation Required		Yes
